January 2022

# Today's presenters

Romil Bahl
Chief Executive Officer

**Paul Holtz**Interim Chief Financial Officer

# Agenda

- 1. Business overview
- 2. Key credit highlights
- 3. Financial update

# **Business Overview**

### KORE at a glance

### Leading global, independent provider of mission critical IoT solutions

Who We Are

- Market leader in enabling end-to-end IoT solutions for enterprises
- Trusted advisor, enabling our customers to Deploy, Manage and Scale their IoT solutions
- · Blue chip customer base including market leading Fortune 500 enterprises and innovative solutions providers across high growth verticals such as connected health, industrial IoT, asset monitoring, fleet management and comms, services

- ✓ Proprietary IP-based services: IoT Connectivity, Solutions & Analytics
- $\checkmark$  Market leading IoT knowledge and experience to help navigate the complex IoT ecosystem
- √ Global independent IoT connectivity and solutions enabler with an integrated network of key partners.

### Global Scale (as of 9/30/21) 190+ countries coverage

- 45 carrier integrations
- 13.6mm connections
- 3,600+ customers
- 500+ employees

### Significant Visibility & Profitability<sup>1</sup>

- Revenue \$241mm
- 114% Net Retention
- 52% Gross margin and 25% EBITDA margin

#### Attractive Credit Story

- Significant barriers to entry and sustainable competitive moat
- Predominately recurring revenue with high switching costs
- Robust free cash flow and strong deleveraging ability
- Pro forma LTV of 25% and 1st Lien Net Leverage of 3.9x
- Pro forma LTM Q3'21 interest coverage of 2.8x

Key Attributes

# KORE business model: offering high demand IoT services

| Product line                                   | Products                                      | Product description  | Primary pricing method   |

### Customer case study: Customer #1

Customer #1 is a multinational medical devices company. KORE works with the cardiac monitoring (pacemakers and related devices) division, which is a market leader in this line of products. It has been KORE's customer for >10 years.

**Cardiac Device** 

**Bedside Monitor** 

**KORE Caas** 

**Physician Portal** 

#### **KORE Solution: IoT enablement of cardiac devices**

- Helped design a custom connectivity device which works with a large number of cellular networks globally; contracted manufacturing with a global contract manufacturer
- KORE is an extension of the customer's supply chain, configuring & handling 200-300K devices per year (growing 20%+ year) with facilities which are:
  - ✓ ISO 13485 / 9001 certified
  - ✓ FDA Registration 21 CFR Part 820 compliant
  - ✓ HIPAA (U.S.) and GDPR (EU) compliant

#### **KORE** global connectivity

- Provided a global connectivity package to provide connectivity across a large number of countries
- Acting as a trusted advisor for customer with transition of 2G/3G devices to LTE (in 2021/22)
- Almost 1 million subscribers and growing fast, leading to significant CaaS revenue stream for 7-10 years per device
- · Upsell to eSIM highly likely given global footprint of services

### Customer use case: Cardiac rhythm monitoring

KORE's solution enables global deployment and management of regulated medical equipment

Delivery: KORE Service Deliver

### Phased transformation to KORE 3.0

# New leadership has repositioned KORE

1 Excludes revenue from non-core austomers in 2021

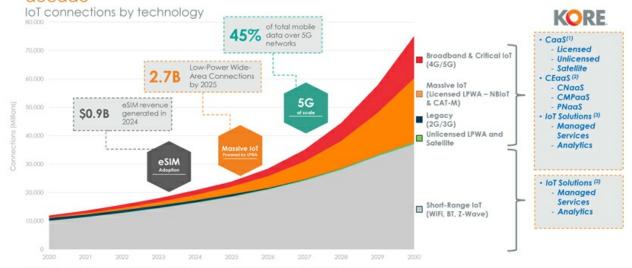

Key Credit Highlights

# Key Credit Highlights

- 1 IoT market is accelerating, driven by significant tailwinds for the next decade
- 2 Leading IoT offering, backed by extensive IP, creates sustainable competitive moat
- 3 Well-diversified customer base
- 4 Highly recurring revenue with long term visibility
- 5 Long track record of customer retention

# 1 IoT market is accelerating, driven by significant tailwinds for the next decade

Source: Glob Ahmid Interinet Report Highlights Tool 2020, COSMA (6) Revenue: State of the Market 2020; Educator, (Mobile February Collection Control Control

# <sup>2</sup> Leading offering, backed by extensive IP, creates sustainable competitive

### Comprehensive mission-critical IoT solution set

44 carrier integrations

7 engine KORE One platform

- · ConnectivityPro service and related APIs
- eSIM technology stack/ proprietary IP
- HyperCore technology

- Deep industry vertical knowledge and experience

  - Connected Health FDA, HIPAA, ISO 9001/13485
     Fleet Management SaaS product and APIs, video
- Unmatched breadth of solutions and analytics services
- SecurityPro network intelligence service
- Asset management, mobile data management, logistics services
- Network certification expertise
- 3,400+ connectivity-only customers for cross-sell

### 3 Well-diversified customer base

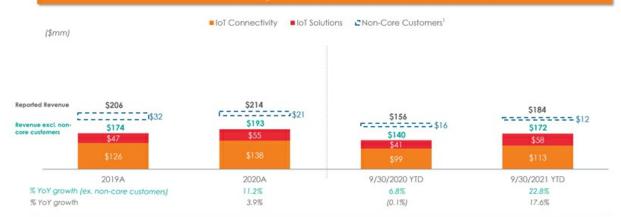

- Outside of Customer 1, which has been a KORE customer for 10+ years, no customer contributes more than 3% of total revenue
- Despite Customer 1 comprising 19.4% of LTM 09/30/21 revenue, its gross profit contribution is significantly lower at 10.8%
- Customer 1's revenue contribution in LTM 09/30/21 is elevated due to a large LTE transition project; normalized is 13.4% of revenue
- Significant long tail of customers with 3,600+ customers outside of top 10 account for remaining ~63% of revenue

### 4 Highly recurring revenue with long term visibility

### ~90% annual recurring revenue and 99% installed base as of 2021

KORE's Top 10 customers have been with the company on average for 6+ years, illustrating the customer value proposition and stickiness of the platform

Source: Company financials

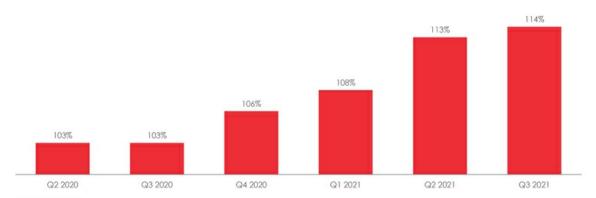

Note: Installed base represents percent of customer cohort remaining in each year; 2019 financials for forming or Integral acquisition; Represents non-core customers from the acquisitions of Raco and Wyless and consisting for the known one time impact of 2020s unusual but one expected to mild for the end of 202 acquisition of Raco and Wyless and a consisting for the known one impellion of 2020s unusual but one expected to mild for the end of 202 acquisitions and the second of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one expected to mild for the end of 2020s unusual but one end of 2020s

### 5 Long track record of customer retention

### LTM dollar-based net retention rate ("DBNER")1

- Strong growth and stickiness among existing customer base demonstrated by growing DBNER
  - DBNER is calculated by dividing current year by prior year revenue for the customer cohort that existed in the prior year

Source: Company familiaria.

(1) Exclude evenue from both on go-forward customers, and new customers that started generating revenue after the end of the base period.

#### Commentary

- · Total revenue increased 22.8% to \$67.9mm compared to \$55.3mm
- IoT Connectivity revenue increased 4.9% to \$41.5mm compared to \$39.6mm
- · IoT Solutions revenue increased 68.2% to \$26.3mm, compared to \$15.7mm
- Revenue generated in KORE's Connected Health industry vertical increased 54.7% to \$31.1mm, compared to \$20.1mm. This was driven by the LTE
  transition project at KORE's top customer, a project which was accelerated from a timing perspective into 2021 from 2022
- Net loss totaled \$4.5mm compared to \$5.6mm
- Adjusted EBITDA, a non-GAAP metric, was \$15.9mm compared to \$15.4mm

- A Special project revenue in 2021 related to large LTE transition project
- 8 Reflects customer churn from the integration of old acquisitions in 2014-17; it takes several years for non-core customer revenue to churn, demonstrating the stickiness of KORE's business model
- © CCGS increased in 2021 due to mix shift of revenue from IoT Connectivity to IoT Solutions, which aligns with overall strategic focus
- D Elevated OPEX in 2021 due to increased costs as a public company
- (E) Capitalized labor for LTM 9/30/21 was \$8.5mm
- Investments and Integration expenses relate to the costs of going public through the SPAC process

KORE. Note: 2019 financials pro forma for integron acquisition

# Financial policy overview

### Leverage

• Expect to delever to a target total net leverage of ~4-4.5x within ~24 months

#### A&M

- Near-term emphasis on tuck-in opportunities to expand geographically, build out capabilities and use cases in industry
  verticals, enhance technical and analytical know-how, as well as 5G and Edge Compute readiness
  - Potential targets under review, to be funded with a combination of cash and equity
- Management's objectives are to target accretive, deleveraging transactions

### Capital allocation

- · Free cash flow generated from the business will be re-invested in the business and used to pay down debt
- · No shareholder distribution expected in the near-term

Appendix

### Net Loss, EBITDA & Adjusted EBITDA Reconciliation

1) Transformation expenses are related to the implementation of our strategic transformation plan, which includes costs of a re-write of our core technology platform, expenses incurred to design certain new IoT solutions and "go-to-market" capabilities

2 Acquisition and integration-related restructuring costs relates to legal, accounting, advisory, and other professional services costs associated with the Integron Acquisition and Integron's integration into KORE, certain synergies related to our acquisitions, certain one-time severance costs associated with our transformation, and accounting and advisory fees related to the Business Combination. The Business Combination is the primary driver of the increase in acquisition and integration-related restructuring costs

Includes of the prospective financial information in this presentation in the presentation the graphed as a representation by any person that the results contained in the prospective financial information will be gasheved.

#### Use of Non-GAAP Financial Measures

OSE OF INORTHS/AMP. FINANCIAL INFOADURES.

In addition to our results determined in accordance with GAAP, we believe the following non-GAAP measures are useful in evaluating our operations algorithms. We use the following non-GAAP financial information to evaluate our orgoing operations and for internal planning and forecasting supposes. We believe that non-GAAP financial information, when taken collectively, may be helpful to investors in assessing our operating performance.

\*\*PERTDA" is defined as net income (loss) before other non-operating expense or income, income tax expense or benefit, and depreciation and amortization. "Adjusted EBITOA" is defined as EBITOA adjusted for unusual and other significant items that management views as distorting the operating results from period to period. Such adjustments may include stock-based compessation, integration and enginetion related changes, tangles and integrable sused impairment changes, certain contingent liability evensals, brandomation, and foreign currency transaction gains and losses. EBITOA and Adjusted EBITOA are intended as supplemental measures of our performance that are neither required by, nor presented in accordance with, GAAP. We believe that the use of EBITOA and Adjusted EBITOA provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing KORES financial measures of the measures with those of comparable companies, which may present similar non-GAAP financial measures to investors. However, you should be aware that when evaluating EBITOA and Adjusted EBITOA we measures should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Our computation of Adjusted EBITOA may not be comparable to other similarly titled measures computed by other companies, because all companies may not calculate Adjusted EBITOA in the same fashion.
